SKILLS

Proficient at

- Python
- Java
- C
- Web
- Bash
- IOT
- GO

Fluent Languages

- English
- Hebrew

EDUCATION

Currently

2nd year Computer Science
Student and Reichman
University.

- GPA: 88
- Algorithms
- Data Structures
- Operating Systems
- Machine Learning

2016 – 2019

Rishonim High School, Herzliya

- "Nachshon" program
- 10 units computer science
- 5 units math and physics

PROFILE

Committed software enthusiast, passionate learner and constantly curious. Currently attending my second year of studies towards my Computer Science Degree at Reichman University.

PROJECTS

Hackathon – 2023

Sorcerers stone – Participated in HackRU answering to Salesforces challenge, my team and I built a (flask based web app) customer support chatbot based on generative AI (GPT API). Learning from previous customer support tickets.

JacBank - 2019

In High School I built a password management system (based in Python) similar in spirit to Google Pass, the software would create store and input passwords automatically.

IDF

Served as a Combat Medic in a Search and Rescue battalion as the event manager. This taught me responsibility, how to thrive and perform under constant pressure and leadership skills.
